

Founded in 1978, Mousavi Food Industries set out to produce and package the highest quality jams with the finest packaging.

This production unit prioritizes buying the best ingredients to deliver the finest product and satisfy customers. With the help of experienced production staff, Mousavi became the nation's leading jam producer, renowned for both product and packaging excellence.

Following success with high-quality, flavorful, and fruit-filled jams in innovative packaging, Mousavi established a production unit for tahini halva, tahini cream, and other sesame and chocolate products.

Our goal remains: creating a complete and diverse breakfast basket for Mousavi consumers, with brand promise of high quality ingredients and delicious, varied products tailored to Iranian tastes.
